DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group I, claims 1-18 and 55-72 in Paper No. 9 is acknowledged. The traversal is on the ground(s) that a search and examination of Groups II and III would appear to encompass the search of the subject matter of Group I because all the claims recite a composition as described above. This is not found persuasive because the product as claimed can be made by another and materially different process such as radical polymerization.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 14 and 67 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant

regards as the invention. "Behenth-25" is an unacceptable trademark, which are not permitted in U.S. patent claims.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-18 and 55-75 are rejected under 35 U.S.C. 102(b) as being anticipated by XP-000934522 (hereinafter "'522"). '522 discloses an application of acrylates/methacrylates/behenth-25 methacrylate copolymer as a thickner and a suspending act. The compositions disclosed in '522 are substantially identical to the claimed compositions. Thus, '522 are anticipated by '522.
